HOMEWORK AND GRADING POLICY:

You will receive a response that includes your grade for each drawing assignment as well as an explanation of the strengths and weakness of the work.

All assignments are graded from A to F according to how successfully it solves these issues:

- How well you grasped the concept of each topic and assignment.
Excellence in critical thinking and performance within the domain of the course.
- The aesthetic quality of the assignment.
- Disciplined creativity.
- The depth of your involvement in the assignment, as seen in your completed work (energy and concentration).
- Conceptual and expressive development, (visual intelligence, power of perception, and disciplined creative sensitivity).
- Skill and style development (craftsmanship and technique).
- Effort devoted to work, as evidenced in finished work- working a long time does not in itself warrant a high grade- work must meet aesthetic and craftsmanship standards to achieve an "A" or "B" grade.

Note: Longer assignments will be weighted more heavily than shorter assignments.

Other factors affecting the outcome of grades:

- Watching all lecture and drawing demonstrations for class projects
- On time completion of assignments
- Class participation
- Presentation (keeping your projects in presentable condition. No tears, creases, unnecessary smudging of material, etc.)

Fulfilling the description of each drawing project successfully.

Topics Include:

- Gesture and line
- Accurate depiction of shapes as a whole and of their parts.
- Understanding of perspective and structure to create form in space.
- Clear values consistent with the light source used to create volume.
- Design and Composition

Spending a great deal of time working on a project does NOT by itself warrant a higher grade. Your work must show clear evidence of an understanding of the topic outlined within any given project.

Assignments must be done well, carefully, and on time to the teacher’s satisfaction. Late homework assignments will be lowered one letter grade.

HOMEWORK AND GRADING:

- 90 - 100% = A (900 - 1000 points)
- 80 - 89% = B (800 - 899 points)
- 70 - 79% = C (700 - 799 points)
- 60 - 69% = D (600 - 699 points)
- 0 - 59% = F (0 - 599 points)

All projects will be graded, the points will be totaled and then divided by the highest possible points; This will be your final grade.

There are 1000 points possible.
